

# Trout Lake Community Foundation

Post Office Box 322

Trout Lake, WA 98650

January 30, 2022

To: Trout Lake Seniors

The Trout Lake Community Foundation is again pleased to be awarding scholarships this year. **Please note that the due date for applications is April 30, 2022.** Applications submitted after the deadline may be rejected.

Enclosed you will find a document detailing the information required for a complete application. As you can see, our application requires a personal statement that should include specific information about your educational plans. Among other things, you should indicate how you plan to finance your education and provide an estimate of the tuition, housing and related costs that you expect to incur with your schooling. We realize that some of these costs may only be estimates, but it gives us an idea of your projected financial need and may also assist you in preparing a financial plan.

**Please note, we require that you are planning to attend an accredited school.** Most schools have accreditation information on their web page. The Department of Education also maintains a database of accredited schools at <https://www.ed.gov/accreditation>. Feel free to contact me or your school counselor if you have questions.

The application form and other information can also be found on our web page, at <https://sites.google.com/site/troutlakecommunityfoundation/home>. That site includes a list of the scholarships offered, including any requirements or criteria. Check out the list, so you can be sure to address any specific criteria in your application. Check the site often, as new scholarships may be added as they are finalized.

If you have any questions, feel free to contact Jim White, 509-395-2585, or Coralee Warner, 509-395-2218.

Sincerely,

James White

For the Trout Lake Community Foundation Board of Directors
